20

18

- 1 Easy and swift installation thanks to the free drilling template. Therefore you always have the right drilling distance from the ceiling.
- 2 Clip is also rail connector.
- 3 All rail can be installed tight to the ceiling, this gives a very neat finish.
- 4 The rail can be re-painted without any special preparations.
- 5 The head of the Twister cord completely disappears into the rail, invisible which is unique.
- 6 R30: The unique R30 rail is a combination between 2 traditional types of rail like the cliprail and the J-rail.
- 7 R40: The R40 rail is the only ceiling rail which can be installed with clips, easier and stronger than the traditional ceiling rail.
- 8 Newly offers 5 years manufacturers warranty.

Twister cord

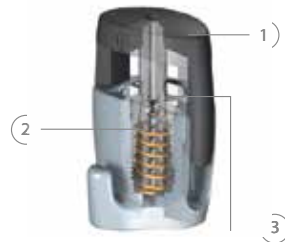

- Twist and secure, therefore a safe and secure fixing.
- Can be used in any location along the rail.
- Really tight but also easy to move.
- Maximum capacity 20 kg/ 44lb.

- 1: Easy vertical inserting without bending or tilting the cord.
- 2: After twisting the Twister a quarter turn, it is locked in the upper compartment of the rail.
- 3: By moving down the Twister it is secured.

Hook

The H100 hook

Exclusive Newly designhook

- 1: Easy to adjust to the millimeter, both suitable for left or right handed.
- 2: Self locking systems with steel balls therefore no cutting into the perlon.
- 3: Capacity 20 kg/44lbs on both perlon and steel cord.

Clip

- Easy and secure installation!
- Always flat against the wall.
- Thanks to this innovative clip the rail can be installed tight to the ceiling.
- The rail can be clicked onto the clip by one touch.
- Fixed and secure due to secured and flexible joiners.
- Clip is also rail connector.

Panel Display

The panel display, the perfect and only solution to hang dibond, plexiglass, wooden panels, carton, aluminium, or any other material with a thickness between 3mm and 6mm. (0,1 and 0,25 inch) on a hanging system without installing, glueing or nailing on the back of the object. Installation is easy between the flexible clamps..

Plaster screw

This screw has been specially developed for fast and secure installation on plaster walls without using a plug.

Solo hanger

The perfect solution for flexibility with a minimum of installation. Perfect to hang an object on a small wall or from the ceiling or any steep ceilings.

Ceilinghanger

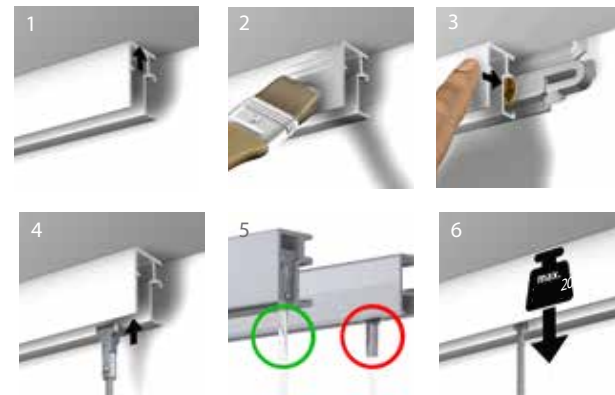

Use the steel profile of your panel ceiling as a hanging rail, perfect solution for offices and so to have a flexible hanging system without installing a rail.

R10

COMPACT

- 1 Installing tight to the ceiling
- 2 Re-paintable
- 3 Easy one touch installation
- 4 Hanging in any position along the rail
- 5 Invisible hanging of the Twister head
- 6 Maximum 20kg per meter (44lb.)

Rail R10

The R10 wall rail is produced from high quality aluminium and is suitable for 20kg/44lbs per meter (size 17 x 12 mm/0,7 x 0,5 inch).

Available in 2 colours:

White/primer

A lively and bright primer white (RAL 9016) which can be repainted without any special preparations.

Alu/silver

Anodized aluminium, gives a very contemporary and robust look.

Each rail is separately packed in shrink wrap to avoid surface damage.
