

WHATEVER YOU FRAME  
VOLUME 14

**ARQADIA**  
A Larson-Juhl company

# Whatever you frame

# ARQADIA

A Larson-Juhl company

## Introduction to Arqadia

Welcome to Arqadia's 14th product catalogue. This edition is our biggest yet and showcases our extensive range of mouldings and ready-made frames. We are a one-stop shop for all of your framing requirements; we have quality products to accommodate all styles and suit all price points.

### Mouldings

Inside, you'll find more than 2,500 mouldings from Arqadia's core range.

Designed to meet the needs of a wider market, the Original Collection offers superb craftsmanship and quality with all mouldings hand-finished in the traditional French style.

Our ever-popular Larson Juhl range of custom mouldings continues to be a huge hit with your discerning customers. This exquisite range offers products to meet the most demanding requirements, whether framing an old master or a piece of contemporary art, there is a moulding to suit every occasion.

The Designer Mouldings range is distributed exclusively by Arqadia in the UK and offers a versatile collection of aluminium mouldings in a variety of colours and finishes.

### The Frame Collection

Our consistently popular Frame Collection offers an extensive choice, including Decorative, Swept, Oval and Circle, Loft, Overmantle, iframes and BARTH frames. So whatever your customer is looking for, there's a frame to suit their needs.

### Mountboard

Our wide range of UK manufactured mountboard comes in over 300 colours and styles, many of which are FSC certified.

Contact us if you want to see our mountboard colour chart that shows the actual cover paper used in our range.

### Glass and Sundries

Please visit our website to view our extensive selection including our glass range: Clarity by Larson Juhl and smART bags.

### Conservation Materials

Arqadia's sister company Conservation By Design (CXD) offers a comprehensive range of high quality conservation storage and display products, including acid free boxes, museum boards and specialist papers to museums, libraries and archives worldwide.

To view all Conservation by Design products, visit [www.conservation-by-design.co.uk](http://www.conservation-by-design.co.uk) or e-mail [info@cxdltd.co.uk](mailto:info@cxdltd.co.uk) for a copy of their latest catalogue.

### Showroom

If you're looking for inspiration on how to freshen up your chevron displays, or just want to have a look at our latest products, you're welcome to visit our showroom in Bedford.

### How to locate Mouldings

Arqadia offers over 2,500 different mouldings in a wide range of styles and finishes to suit every framing requirement. Locating mouldings in this catalogue couldn't be simpler. Each type of moulding finish is listed in the contents section and all of the mouldings are indexed numerically at the back.

Next to each moulding you will find symbols that indicate colour, finish etc., as well as whether the moulding is available in single length or via our chop service. You'll also be able to see whether it is part of our popular Essentials collection. A full key to all of the symbols can be found on page 3.

Although the catalogue represents our full range at the time of going to press, we are continually adding new and exciting mouldings to the range. Our sales representatives will be pleased to update you with the latest additions or alternatively please visit our website.

If colour is critical we would recommend that you request samples before you order.

Please note: The moulding illustrations shown in this catalogue are printed actual size; however, we have included moulding width, rebate depth and overall depth in mm for added clarity.

### Free Sample and Literature Service

We are pleased to supply you with a free reference sample service for mouldings. If you would like to see a particular line, please contact your local Arqadia representative or our Call Centre for further details. The best place to view new products is our website [www.arqadia.co.uk](http://www.arqadia.co.uk).

## Arqadia Quality

Arqadia leads the market in moulding development. Our innovative and dynamic approach is matched only by our commitment to craftsmanship, tradition and customer service.

To ensure we continue to offer the best possible service to our customers we use only the highest quality suppliers who meet our stringent demands of product quality and supply capabilities.

We have strict control procedures in place to ensure our stocks remain at a consistently high quality. All incoming mouldings are checked against master mouldings for correct specification, finish and quality.

## Environmental Issues

At Arqadia we recognise the worldwide increase in environmental concerns about the sourcing of wood. In 2008 we were awarded the Chain of Custody certification for both FSC (Forest Stewardship Council) and PEFC (Programme for the Endorsement of Forest Certification schemes). Our certificate numbers are FSC TT-COC-002824 and PEFC: PEFC/16-37-819. This gives you the confidence that products carrying these labels are independently certified and managed to meet the social, economic and ecological needs of present and future generations.

Our aim is to provide the marketplace with a growing number of sustainable products. We are currently working with suppliers to increase the range of certified products we offer and to ensure they're sourcing wood from environmentally sensitive sources.

TT-COC-002824  
The mark of responsible forestry

PEFC  
Promoting sustainable forest management.  
PEFC/16-37-819

## Placing an Order

For full details about placing an order, including information about UK and international sales as well as shipping, payment and setting up an account as a new customer please refer to our website [www.arqadia.co.uk](http://www.arqadia.co.uk)

You will also find full order details included with our latest price list.

## Chop Service for Wood and Aluminium Mouldings

We offer a chop service on all of our Larson-Juhl, Original Collection, Designer ranges as well as limited range of Arqadia mouldings, so you can choose to buy either in custom chopped or standard lengths.

# SILVER

Silver tones can be cool and sophisticated and give either a modern or vintage look and feel to framing projects.

We offer a variety of silver ranges in an array of contemporary and ornate profiles.

ALUMINIUM  
WRAPPED  
WOOD

These mouldings offer the sleek appearance of extruded aluminium but without the need for pre-mitred cutting. This saves the framers both time and hassle while still creating a modern, industrial look.

The mouldings are supplied protected by a thin plastic film which will prevent any scratches to the aluminium surface during frame construction and is easily removed.

MOULDINGS

ALUMINIUM WRAPPED WOOD

Ⓒ Chop length (custom) Ⓛ Single length

## Aluminium Wrapped Wood

Frames made with these mouldings have all the appearance of being made from conventional extruded aluminium, which to most framers would normally mean buying in pre-mitred cut lengths in kit form – a process that can add at least 24 hours to a job.

These mouldings have the advantage of being constructed with a thin aluminium skin wrapped on wood, which means that mitres can be cut on a Morsø machine or circular saw and frames are then finished in the same way as regular moulding.

The mouldings are supplied protected by a thin plastic film which will prevent any scratches to the aluminium surface during frame construction and is easily removed before collection by the customer.

## F L O A T S

The recent trend towards a floating look for artwork means that this is now a hugely popular framing style. Our float range now contains over 50 styles including versatile new additions Andover and Bari.

## INSET MOULDINGS

Our inset mouldings can be used in two ways; either as a regular moulding or on their side to create a box-style frame. This range also includes our barefaced style for when you want the understated class of a natural wood finish.

COLOURED  
RANGE

Covering something for all tastes we offer a variety of coloured profiles. From the bright and highly polished look of the Harlequin range to the subtler washed effect of the Shoreham collection, there is sure to be something to suit any framing project.

## PLAIN AND DECORATIVE WOOD

With a trend for warmer, darker and moodier hues our collection of dark wood mouldings will help complement traditional décor or bring a unique natural feel to a piece of artwork.

Key ranges include the warm browns and wonderfully textured patterns of Navarra and the natural tones in the Coastal collection.

**FrameBox® allows any 3-dimensional item to be framed quickly and simply**

FrameBox® eliminates the need for deep rebate frames, which can be expensive and limited in size.

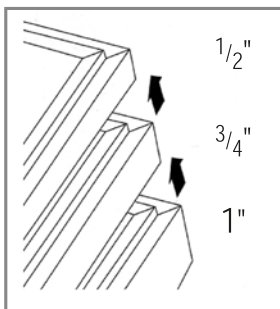

With FrameBox®, any depth can be achieved, allowing those previously 'impossible' items to be framed quickly, easily and at a more affordable cost.

FrameBox® mouldings are available in *Barefaced!* finish, in three sizes:

1 1/2" (13mm)	3/4" (19mm)	1" (25mm)
206 400 000	207 400 000	208 400 000

Flip FrameBoxes® to create a reducing perspective effect.

Use two or more in any combination to create special size FrameBoxes®

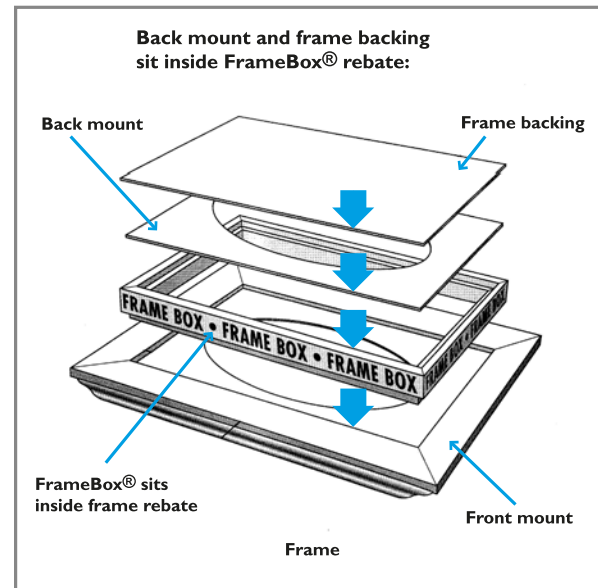

**Hints and Advice**

- For a permanent fitting, FrameBox® may be secured in place using PVA wood glue.
- A silicone sealant is recommended for the easier removal of your FrameBox® at a later date.

This unique product allows the framer to add a deep box to any picture frame – using exactly the same equipment to mitre and underpin that they already use to make an ordinary frame – and can accommodate items of varying depth:

- 3D Decoupage Paper Sculpture
- Wedding Bouquets
- Butterflies
- Decorative Plates and Thimbles
- Collectors Items
- Sugarcraft
- Medals and Coins
- Special Editions
- Hole-in-One Golf Balls
- Dried Flower Arrangements
- Models - Dinky Toys

**FrameBox® turns any frame into a Deep Box Frame**

The FrameBox® logo and design are protected by Registered Patent.

The latest example of Arqadia's commitment to innovation for the framing industry is Arrow-Head device. This product has been introduced to meet the increasing demand for canvas artwork and involves a stretcher bar moulding made in pine, with a specially created groove, together with plastic Arrow-Head fixings. Framers simply cut appropriate lengths of moulding to size, then using an Arrow-Head in each corner create the basic structure of the frame; they then wrap the canvas around and finally secure it in place with staples. The Arrow-Heads are then tapped into the four corner joints with a hammer - an integral steel tensioner incorporated into the hard plastic Arrow-Head tightens the canvas. This stretches the canvas artwork to the desired tension

## ALUMINIUM FRAMING SYSTEM

The Designer Mouldings range by Cardinal Aluminium Company is one of the leading brands in the USA and is distributed in the UK exclusively by Arqadia Limited. There are 25 different profiles available in a wide choice of colours and finishes. Overleaf we illustrate all 54 colours, the Artel finishes are actually bonded to the metal for unparalleled scratch resistance and corner cuts that won't chip or flake.

## ALUMINIUM FRAMING MITRE SERVICE

We operate, nationwide, the Designer Mouldings Mitre Service, which can supply framing kits of precut mitred aluminium mouldings. Each frame kit is supplied complete with corner brackets, spring clips, hangers and wall protection bumpers, and can be dispatched within 24 hours of your telephone order.

Please note: price lists are available from our Representative or telephone the Arqadia Call Centre: 01234 852777.

## NATURAL WOOD VENEERS

Our new Touchwood range provides a natural veneered finish in Wenge, Walnut, Oak, Maple and Beech. The range is split into four categories: 'Art' comprised of simple, everyday mouldings; 'Interiors' which is designed to appeal to interior designers with cutting edge profiles; 'Floats' which features float mouldings for canvases and finally, 'Unique' which has an unusual and original mix of veneers and finishes.

The range gives the opportunity to capture the fashionable 'unfinished' or Nordic look but with none of the challenges associated with working in solid wood mouldings. With a unique set of profiles that retain the sharp edge necessary for the framing of art, Touchwood also allow a framer to add their own choice of stain finish.

A4 size frames have easel backs

All other sizes have 4-points hanging system

iframe is a versatile photoframe made from acrylic and consists of a magnet in each corner.

Once pulled apart you can add your photo/image then put the two parts back together.

Available in two sizes only and sold in packs of 6.
